WHO WE ARE

Who We Are

Started by visionary entrepreneur Mr. Rasid Ansari in the year 2014, Raja Engineering Dispense System Services is a 100% Indian business specializing in beer system installations, maintenance, service and repairs, beer line cleaning and chiller cleaning and servicing. We serve hotels, pubs and clubs in the Delhi-NCR metropolitan and surrounding North Indian areas. Our services are also available to the home bar and homebrew enthusiasts.

Raja Engineering's Head Office is situated in New Delhi and has a dedicated team of experienced and reliable Beverage System Technicians. Our Refrigeration Mechanics stands by breakdown maintenance 24 hours a day 7 days a week all with fully equipped service vans. We also offer free 24/7 phone advice and our staff are happy to help with any enquiries you may have.

While Service and Repair is our key strength, we also provide custom bar and beverage and refrigeration equipment, innovative underbar items, industry-leading beverage dispensing equipment and time-tested brewery fittings. Our products optimize energy use and increase durability to help customers maximize the profitability of their beverage service operations.

WE ARE EXPERTS OF TROUBLESHOOTING AND ANALYSIS

OUR SERVICES

Our Services

Whether you require one-off equipment checks, continuous condition monitoring, remote service, or regular plant inspections, our service experts will take care of it all. You can even outsource your complete maintenance operations to us. This ensures excellent plant availability plus the best production results. Raja Engineering's service line includes — Manufacturing, Installations and Maintenance of all types of Refrigeration, Air- Conditioner, Kitchen Equipments (Hot & Cold), Remote Draft Beer System and Micro Brewery.

No matter what your requirements - whether you want a one-off inspection or regular maintenance: we draw up a service and maintenance plan to suit you. On request, we also take over the complete maintenance. This gives you all the benefits of a service partnership with Raja Engineering: agreed plant availability, high planning reliability, and access to expertise. In short: you focus on your core business - we look after your machines, equipment, or the entire plant.

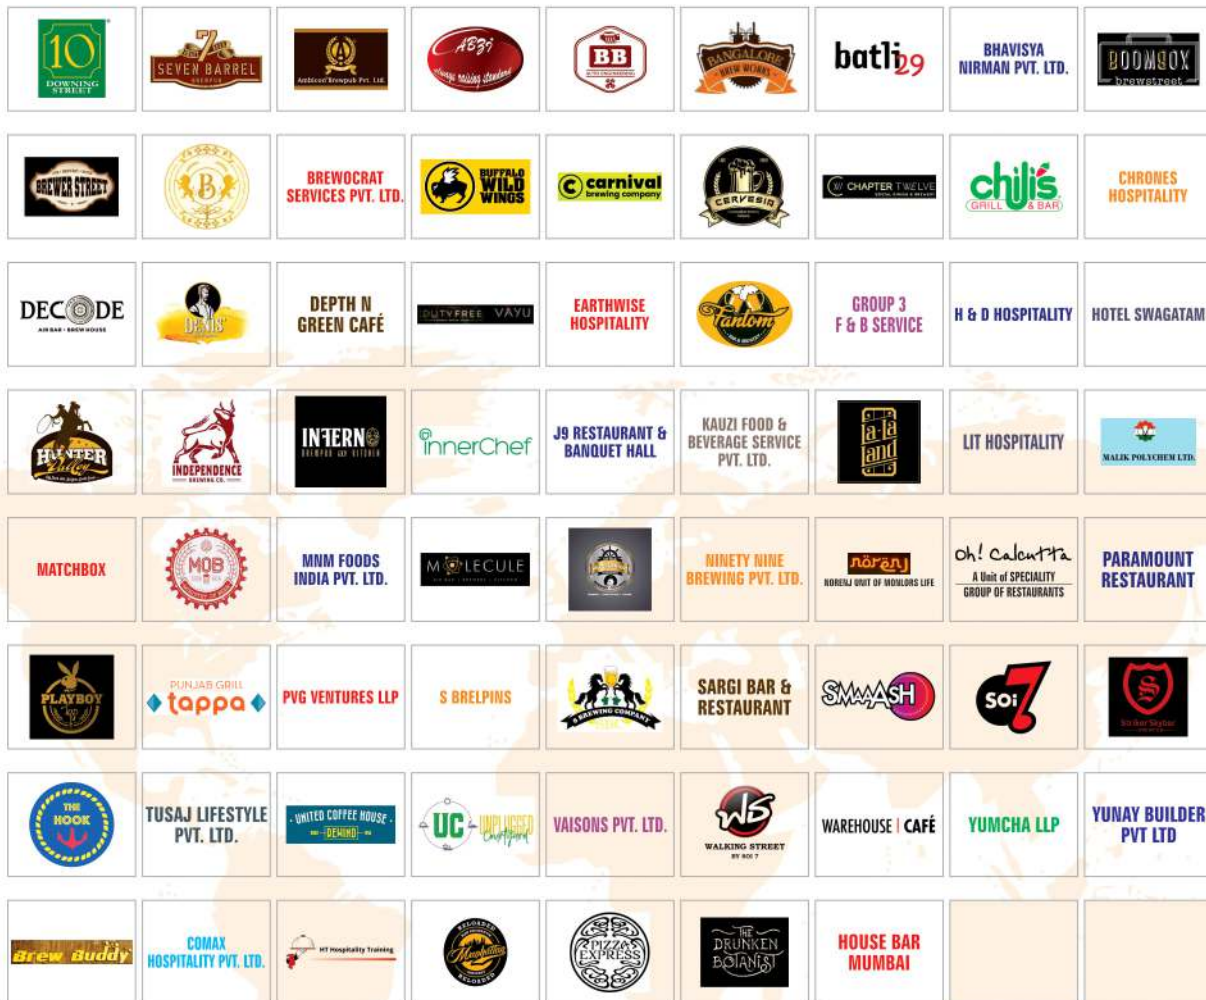

WE OFFER CLEANING, REPLACEMENT AND REPAIR OF DRAFT BEER SYSTEM COMPONENTS

OUR CUSTOMERS

Our Customers

Raja Engineering is the current service contractors for several breweries and beverage suppliers in Delhi / NCR as well as across India including.

WE RUN NATIONWIDE SERVICES

WHY CHOOSE OUR BUSINESS

Why Choose our Business

Raja Engineering's prices are very competitive. We are available to service your equipment and answer queries after hours, on weekends and on public holidays. We are an independent business and are not promoting any a particular brand of beer. Therefore, we are able to provide unbiased advice and recommend what is best for your outlet regardless of what product is being served, as well as offering information and training on ways to minimize your wastage. Your business success is our livelihood. Our priority is to maximize your profit so we can both grow together.

WE DO MODIFICATIONS AND ADDITIONS TO HOME DRAFT BEER SYSTEMS AND KEGERATORS

ICE FORESTED SYSTEM

Ice forested System | Silver Snow Prideful Quality

The ice frosted system would be the skin making people could not help touching. Ice frosted system definitely not only have the beautiful appearance look. Its more important function is to form refined and durable ice layer on the surface of the beer tower via powerful circulating water cooling to reduce the beer temperature for the second time, thus to assist to stabilize beer Temperature and guarantee high efficient beer outlet.

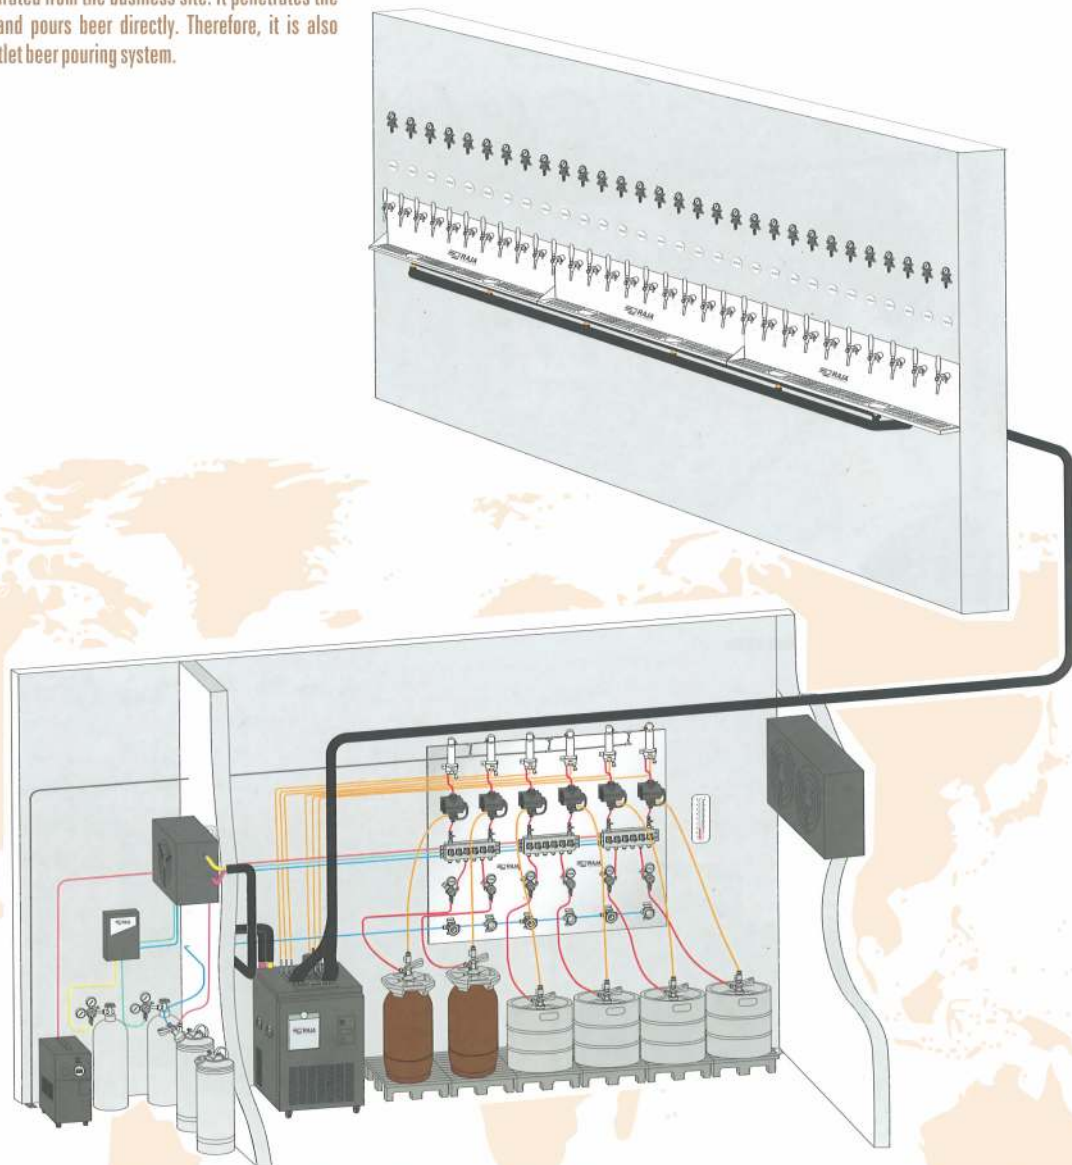

WE DO INSTALLATIONS AND CONVERSIONS OF HOUSEHOLD REFRIGERATORS TO DRAFT BEER SERVICE

KEG BEER WALL OUTLET SOLUTION

Cold Room | Keg Beer Wall Outlet Solution

It satisfies the short-distance beer transport demand when the beer depot is separated from the business site. It penetrates the beer depot wall and pours beer directly. Therefore, it is also called the wall-outlet beer pouring system.

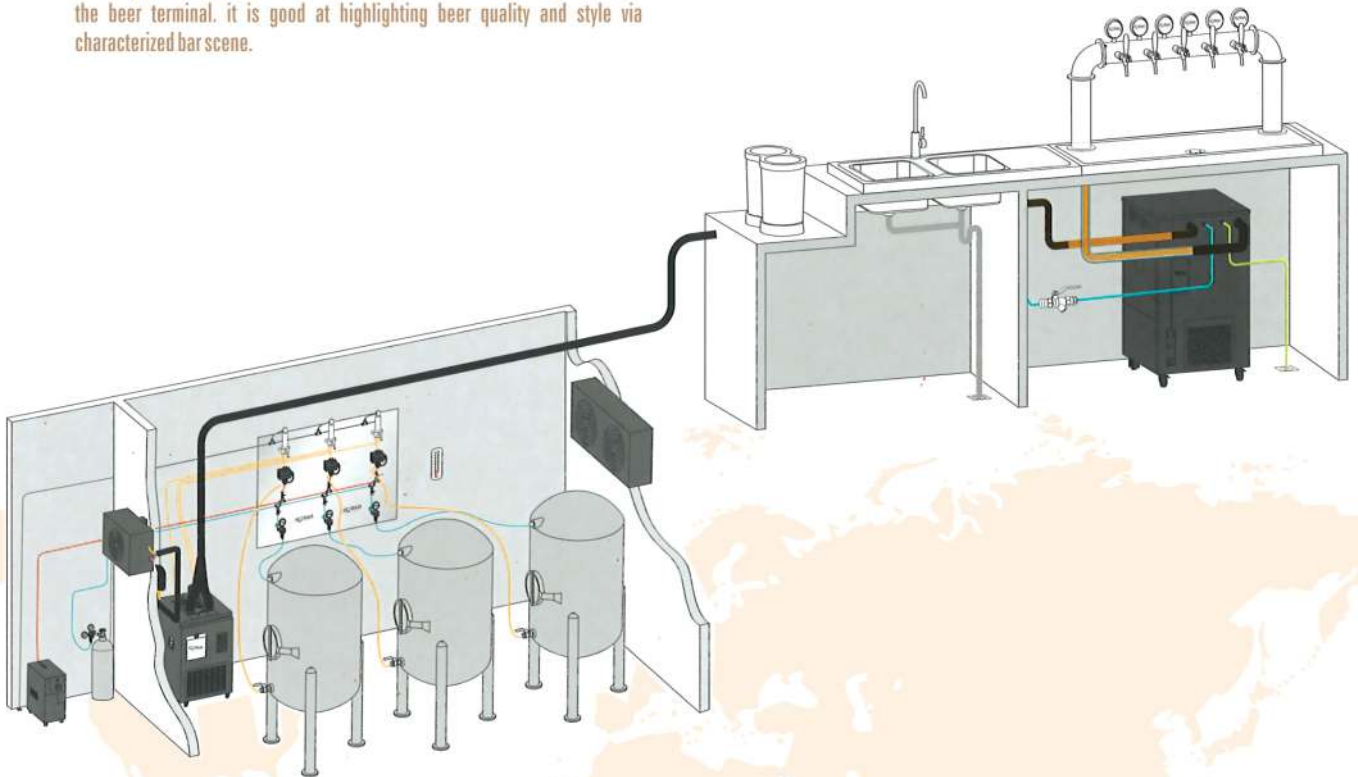

HOME BAR DRAFT BEER SYSTEM CONSULTATION, DESIGN AND SET-UP

BAR COUNTER SOLUTION

Cold Room | Bar Counter Solution for home brewed beer

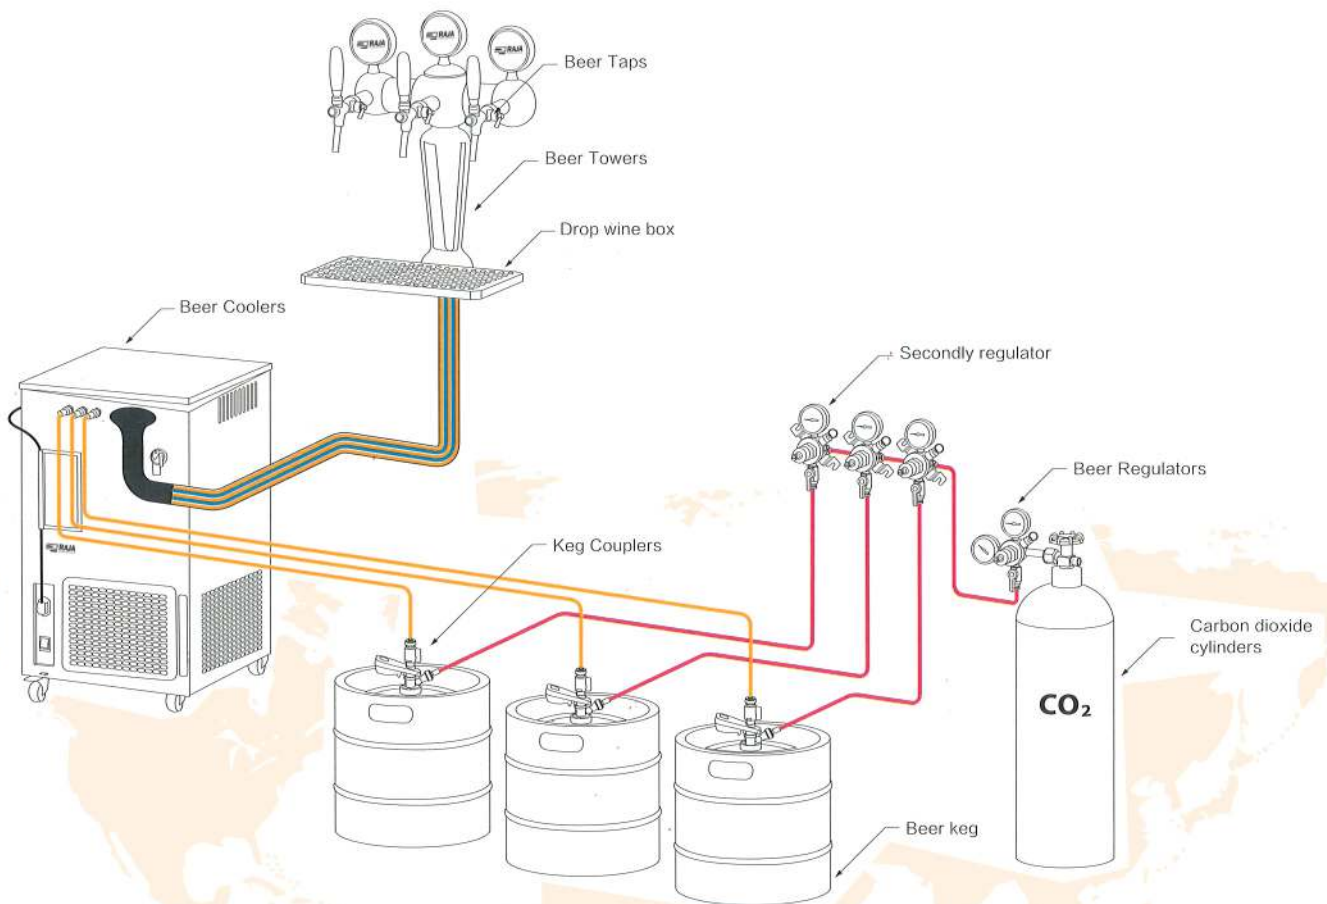

Home brewed beer bar always have a batch of loyal fans. But the soul behind this is usually the brewer chasing for perfect details. Home brewed beer bar counter solution, which is researched based on cold room system principle, specially provides the top level brewer with greatest beer quality guarantee at the beer terminal. it is good at highlighting beer quality and style via characterized bar scene.

WE HELP TO BUILD & MANGE YOUR DRAFT BEER SYSTEMS

BAR SYSTEM

Bar System

The bar system is the most professional dispensing system except the top level cold storage system. It can be flexibly configured according to the product types in business and the space size under the bar. It realizes surface and concealed installation, and disassembly of beer keg, beer cooler and components. And it makes the maintenance more convenient. Since it allows to be optionally assembled with multiple types of beer towers, it is always the first sight of bar.

WE ARE A VALUE-ADDED SERVICE BEFORE, DURING AND AFTER THE SALE.
